BELIEVABLE BEAUTY

By

DR. JENNIFER M. LEVINE

LEVINE CENTER FOR PLASTIC SURGERY
NEW YORK, NEW YORK

F

inding the beauty potential of each one of her patients is integral to Dr. Jennifer M. Levine's approach to facial rejuvenation. "We employ our 'Believable Beauty' philosophy into every procedure. I think women should be celebrated for their individual beauty and my job is to enhance the unique features in each one of my patients to help them unlock the confidence within," she says. Utilizing cutting-edge technology and employing a combination approach, she is able to assess exactly what her patients need in order to create a treatment plan that includes the surgical and noninvasive procedures that are best suited to treat signs of aging. "I have the ability to combine multiple modalities to treat all layers of the face, but without the downtime," adds the doctor. "I believe in educating my patients, providing a pre-op regimen to ensure rapid healing and meticulous planning followed by flawless execution."

“

Everyone has an essence of who they are. My goal is to find that essence, enhance it and show it to the world.

WHO I AM

1.

CAREER-DEFINING PATIENT

I trained at a teaching hospital in New York City that had a large immigrant population. While waiting to do a rhinoplasty in the operating room, I was called to perform an emergency life-saving procedure on a patient. Not only was I able to save someone's life, but my rhinoplasty patient also loved her result. That's when I knew my true calling was making people happy

2.

WHAT IS THE ONE THING YOUR PRACTICE OFFERS THAT IS REALLY UNIQUE?

The "Believable Beauty Lift," a combination of noninvasive procedures that address the signs of aging without the downtime

3.

WHAT ACCOLADES MEAN THE MOST TO YOU?

My patients' happiness and renewed confidence in their appearance

4.

WHAT ARE YOUR MOST REQUESTED PROCEDURES?

Rhinoplasty, a combination of noninvasive facial procedures and SculpSure®

5.

WHY DO YOU EMPLOY A LESS-IS-MORE PHILOSOPHY?

I want to be respectful of the unique characteristics that give each person his or her individual beauty. I'm very mindful of the underlying anatomy

6.

WHAT NONSURGICAL TRENDS ARE YOU SEEING AT YOUR PRACTICE?

Rejuvenation of the face often extends below the neck to the upper chest and hands. Having a youthful face often requires the body to match. I am seeing more of my patients inquiring and addressing those areas

A Delicate Balance

This 27-year-old patient was unhappy with the way her nose shape fit her face. Dr. Levine performed a rhinoplasty procedure to bring balance to her features and give her a softer, more attractive look.

MY MOTTO

If you look good, you'll feel good

HOW I WOULD SPEND EXTRA TIME IN THE DAY

I would work on other projects like writing a book and spend more time with my family

MY DREAM INNOVATION

A neck treatment that gives surgical results without the downtime
